The SAS/ACCESS interface to PeopleSoft gives you a way to utilize your PeopleSoft data with SAS and advanced SAS solutions. This interface gives you the power to uncover valuable facts about how your PeopleSoft system is organized and where valuable information might be found. In this title you will learn how to extract, browse, and search PeopleSoft metadata and use the PeopleSoft metadata to build SAS views of PeopleSoft tables. You can save these views as permanent SAS views, data files, or source code. This guide provides glossary definitions and tutorial instruction for a novice user. Once you have mastered the tutorial, you can use the rest of the guide for reference. This title is also available online. This title is intended for applications programmers and other users who are familiar with either SAS or PeopleSoft software. It is assumed, however, that users are completely unfamiliar with using both of the systems together. Supports releases 9.1 and higher of SAS software.

Explains how to use SAS and SAP R/3 software systems together through SAS/ACCESS Interface to R/3. Illustrates how to work with R/3 metadata in conjunction with a SAS data warehouse.

With the SAS/ACCESS interface to R/3, your business analysts have access to and can exploit the critical business information housed in R/3 for an open, intelligent decision-making process. In this title you will find the information you need in order to use the SAS/ACCESS interface to R/3, including how to access and display R/3 metadata, search R/3 metadata structures, perform data requests, export R/3 metadata to a SAS data warehouse, and manipulate the data using data warehouse processes. You can use the interface as either a standalone product or an add-in to SAS/Warehouse Administrator. This guide provides tutorial instruction and glossary definitions for novice users of the SAS/ACCESS Interface to R/3. After you have mastered the tutorial, you can use the rest of the guide for reference. This title is also available online. This title is intended for applications programmers and other users who are familiar with either SAS or SAP R/3 software. It is assumed, however, that users are completely unfamiliar with using both of the systems together. Supports releases 9.1 and higher of SAS software.

In this title you will find the information you need in order to use the SAS/ACCESS interface to R/3. Find all the information you need in order to use the SAS/ACCESS Interface to Bean! This user's guide describes how to use the SAS/ACCESS Interface to Bean as a standalone product; describes how to use the interface as an add-in to SAS/Warehouse Administrator; provides primary support for using the interface to import data from a Bean system; and describes the metadata that is created when a Bean scheme is imported. It also provides glossary definitions and tutorial instruction for novice users of the SAS/ACCESS Interface to Bean. After you have mastered the tutorial, you can continue to use the guide for reference. This title is intended for applications programmers and other users who are comfortable with their own operating environment and are reasonably familiar either with SAS or with Bean. It is assumed that users are completely unfamiliar with using both systems together.

Learn how to use the SAS/ACCESS interface to SAP BW to deliver valuable insights that will vastly improve your business decision-making capabilities! Find all the information you need in this user's guide about how to extract and browse InfoCube and ODS object metadata from the SAP Business Information Warehouse (SAP BW), import InfoCube and ODS data into SAS, export OLAP metadata about an SAP BW InfoCube to SAS/EIS, and retrieve SAP BW data both interactively and in batch mode. This guide also provides glossary definitions and tutorial instruction for novice users of the SAS/ACCESS Interface to SAP BW. After you have mastered the tutorial, you can continue to use the guide for reference. This title is also available online. This title is intended for applications programmers and other users who are comfortable with their own operating environment and are reasonably familiar with either SAS or SAP BW. It is assumed that users are completely unfamiliar with using both systems together. Supports releases 9.1 and higher of SAS software.
