Provides a guide to the Mercury outboard motor, featuring step-by-step illustrated procedures, trouble-shooting, and wire diagrams.

The aim of this book, with its superb step by step photographs and detailed diagrams is to enable every owner to understand the workings of an outboard motor (2 or 4 stroke) and be able to fix it with relative ease. It includes: an explanation of the different parts that make up the engine and how they interact; how fuel is transformed into propulsion; regular maintenance and repair worksheets to help even the most mechanically ignorant to work on their outboard engine with confidence; the most common causes of breakdown; troubleshooting tables to allow you to diagnose and fix the most common engine problems and advice on how to winterize your outboard in one short afternoon. After reading this book, your outboard will no longer be a potential bother to you but an ally for better boating.

The first edition of Outboard Engines set the standard for a clear, easy-to-follow primer on engine basics, troubleshooting, care, and repair. This new edition, significantly expanded, brings the subject up to date, with full coverage of the new four-stroke engines, conventional electronic and direct fuel-injection systems, oil-mix systems in the new clean two-strokes, and more. You'll save time and money doing your own engine repairs and maintenance.

How We Are Hungry is a gripping, lyrical and soulful collection of stories from the acclaimed author of A Heartbreaking Work of Staggering Genius. Ranging from a doomed Irish setter ' s tales of running and jumping (" After I Was Thrown in the River and Before I Drowned ") to a bitterly comic meditation on suicide and friendship (" Climbing to the Window, Pretending to Dance "), and from the Egyptian desert to the asphalt of Interstate 5, these stories are Eggers at his finest. By turns devastating, clear-eyed and funn – incredibly funny – this collection is a marvel.
