The "one-stop" reference for authors preparing manuscripts in biblical studies and related fields.

This book addresses and synthesizes recent basic, translational, and clinical research with the goal of understanding the mechanisms behind autism spectrum disorder (ASD) and how they lead to altered brain function and behavior. Bringing clarity to these mechanisms will lead to more effective therapies for the various heterogeneous pathologies that comprise ASD. Currently there are few, if any, proven therapies for the majority of the disorders. Among the topics addressed are neural plasticity, neuroimmunology, neuroinflammation, neuroimaging, and appropriate animal and genetic models.

The definitive source for how to write and publish in the field of biblical studies The long-awaited second edition of the essential style manual for writing and publishing in biblical studies and related fields includes key style changes, updated and expanded abbreviation and spelling-sample lists, a list of archaeological site names, material on Qur'anic sources, detailed information on citing electronic sources, and expanded guidelines for the transliteration and transcription of seventeen ancient languages. Features: Expanded lists of abbreviations for use in ancient Near Eastern, biblical, and early Christian studies Information for transliterating seventeen ancient languages Exhaustive examples for citing print and electronic sources

The book provides insights of International Conference in Communication, Devices and Networking (ICCDN 2017) organized by the Department of Electronics and Communication Engineering, Sikkim Manipal Institute of Technology, Sikkim, India during 3 – 4 June, 2017.
