The solutions manual has a number of errors (I've found an average of at least 2 per chapter, and I'm sure I don't catch them all), but for the most part puts you on the right path. The text is nearly useless without the solutions manual, so I guess you need this; read carefully and think deeply when an answer doesn't make sense -- it may be you, or it may be the manual.

The Solutions Manual, carefully revised by Peter Crabb of Northwest Nazarene University, contains solutions to all basic, intermediate, and challenge problems found at the end of each chapter. This supplement can be purchased by students with instructor approval or can be packaged with this text at a discount.

~~Prepared by Susan White, University of Maryland Available to instructors and students alike, this comprehensive solutions manual provides step-by-step analysis of how to perform chapter exercises~~

The Solutions Manual contains detailed, worked-out solutions for all of the problems in the end of chapter material. It has also been revised for accuracy by multiple sources. It is also available for purchase by students. The Solutions Manual is prepared by Joseph Smolira, Belmont University.

~~Includes solutions to all Practice Problems and Challenge Problems from the text.~~

This new international edition provides increased coverage of the procedures for estimating the cost of capital, expanded coverage of risk management techniques and the use and misuse of derivatives, and additional coverage of agency problems.

~~Peter Crabb, Northwest Nazarene University, has prepared this resource containing solutions to all the end of chapter problems. This can also be made available to your students or packaged with the text at a discount.~~
