A spectrum (plural spectra or spectrums) is a condition that is not limited to a specific set of values but can vary, without steps, across a continuum.The word was first used scientifically in optics to describe the rainbow of colors in visible light after passing through a prism.As scientific understanding of light advanced, it came to apply to the entire electromagnetic spectrum.

Spectrum - Wikipedia

Spectrum definition is - a continuum of color formed when a beam of white light is dispersed (as by passage through a prism) so that its component wavelengths are arranged in order. How to use spectrum in a sentence.

This accessible yet comprehensive primer explores the breadth of viewpoints on major issues in evangelical theology by examining positions taken by evangelicals on seventeen seminal issues. The second edition retains the helpful features of the first edition and adds an appendix that addresses thirteen peripheral issues in contemporary evangelicalism. Praise for the first edition "The authors do what no book on the market does: In one volume they faithfully present divergent views on the crucial issues that divide evangelicals, and they do so in an unbiased, succinct, and lively manner. This book is perfect as a supplemental text in an introductory theology course or as a manual for church study groups. It will help everyone arrive at his or her own conclusions within the parameters of the evangelical tradition."--Dennis Okholm, Azusa Pacific University "Across the Spectrum succeeds with distinction in at least two respects. First, it represents a very useful tool for those who wish to begin grappling with different approaches to difficult theological problems. The book will be most helpful to beginning students in evangelical theology, the target audience. Second, the work presents various perspectives in fair and unbiased tones. . . . If used with care, it will repeatedly reward the reader with its fair and even treatment of different theological views."--Nathan D. Holsteen, Bibliotheca Sacra "I've been waiting for this book for some time. Due to its brief, nontechnical format, it can be used in a variety of ways in undergraduate theology courses. Although a concise volume, it succinctly outlines multiple arguments, both pro and con, for (incredibly!) over two dozen issues in disputed, largely non-fundamental areas of doctrine. The professor can present positions in favor of particular views or leave the issues open. It's settled--I'm requiring it!"--Gary R. Habermas, Liberty University "A collective sigh of relief will arise from the evangelical student body when it discovers this book! It helpfully and critically surveys the many legitimate evangelical theological options and convincingly demonstrates that there is no single authentically evangelical viewpoint on a wide range of controversial issues. It constitutes a small library between two covers."--Roger E. Olson, George W. Truett Theological Seminary, Baylor University

A remarkable inside look at the intersection of faith and autism for parents longing to connect their children with God's love Raising a child with autism is both a challenge and an adventure--and sometimes parents need to know there can also be wonderful potential for blessings. While it is primarily a much-needed how-to guide for parents of children with special needs, this book is also a stunning view into the world of autism. Readers will witness the courage of Tyler Gianchetta, who rescued his mother from a burning vehicle. They'll marvel at the artistic talent of nonverbal poet and artist Kimberly Dixon, admire the determination of Armani Williams, competing as a NASCAR driver, and find encouragement in the many other stories within these pages. In addition to these experiences, Sandison has also interviewed top experts in the autism field and shares their insights here. Sandison weaves narrative with Scripture, sharing his own journey with autism throughout the book. Full of anecdotes, scientific research, parenting tips, prayers, devotions, and more, Views from the Spectrum is a celebration of autism, faith, and the possibilities at their intersection.
