basis for comparing standards, the GAPPS has drawn upon existing standards for program management (MSP ®, PMI, P2M, ICB3) to identify the most common elements.

Standards for Program Management : GAPPS

Schedule management - Prepare and maintain schedules for activities aligned to project delivery. Risk, and issue management - Identify and monitor project risk or opportunity, plan and implement responses to them, contribute to a risk management plan. Respond to and manage issues within a defined governance structure.

...

ISO 21500:2012, Guidance on Project Management, is an international standard developed by the International Organization for Standardization, or ISO starting in 2007 and released in 2012. It was intended to provide generic guidance, explain core principles and what constitutes good practice in project management. The ISO technical committee dealing with project management, ISO/PC 236 was held by the American National Standards Institute which had approved four standards that used PMI materials.
