Suzuki has not backed down the 1100. On the contrary, the 1981 bike is even quicker and faster than the 1980 version. The present bike, after being thrashed around on the roads for a 600-mile weekend, went straight to the drag strip and thence ran the quarter-mile in 11.18 seconds at 119.84 mph! (The February bike clocked 11.49 seconds at 116.88 mph.) If you find yourself becoming bored with ...

In fact that's not wide of the mark as both the GSX-R750 and 1100 were mapped out on Hamamatsu's drawing boards at the same time. The 1100's made full use of that extra development time. The result is impressive. A 125hp, oil-cooled engine sits in a chassis that's lighter than the competition's 750s. We expected a race winning ride from the machine but were surprised when we also found good ...

Ton Up! A Century of Café Racer Speed and Style focuses on the story of the ton-up boys and their café racers. But it's much more than just that. Illustrated with historic and modern photos and featuring a text by one of the world's motorcycle historians, it's really the story of motorcycle speed and style evolved from the early 1900s right through today. Cafe racers are most associated with the young, rebellious rock-and-rollers of 1960s Britain. These riders created the quintessential café racers—fast motorcycles customized to resemble the racing bikes of the period. They were called “café racers” because their riders raced on public roads, from one café to the next. The goal was to do “the ton” (exceed 100 miles per hour) on these runs, which led to their

designation as "ton-up boys." Today, ton-up culture is more popular than ever and recognized worldwide with a following of young and long-time riders alike. With Ton Up!, enjoy a scenic ride through the history of this vibrant scene.
