Teaching U.S. History offers an innovative approach to social studies teaching by connecting historians to real-world social studies classrooms and social studies teachers. In an unusual, even unprecedented, dialogue between scholars and practitioners, this book weds historical theory and practice with social studies pedagogy. Seven chapters are organized around key US History eras and events from the time of slavery through the Civil Rights Movement and are complemented by detailed discussions of a particular methodological approach, including primary source analysis, oral history and more. Interviews with historians open each chapter to bring the reader into important conversations about the most cutting edge issues in U.S. history today and are followed by essays from expert teachers on the rewards and challenges of implementing these topics in the classroom. Each chapter also includes a wealth of practical resources including suggested key documents or artifacts; a lesson plan for middle school and another suitable for high school; and suggested readings and questions for further study. Teaching U.S. History is a must read for any aspiring or current teacher who wants to think critically about how to teach U.S. history and make historical discussions come alive in the school classrooms where the nation's students learn.

This book investigates the impact of integrating culturally relevant and pedagogically dynamic classroom management strategies into the curriculum of an urban secondary education pre-service methods course. The book begins by framing the problem of integrating classroom management into the lives of those learning to teach impact. It then examines multiple case studies of students from the study's control cohort who did not have classroom management coursework in their methods course. After breaking down the challenges encountered by the control students, the book offers DCMA as a framework from which teacher educators might create an integrative methods course. The book then analyzes students from the study's experimental cohort and how they benefited from such an integrative course throughout their teacher preparation and into their first year of teaching.

Representing the Middle East and Africa in Social Studies Education examines the lived classroom experiences of six social studies teachers and the relevance of their discourse in framing the knowledge students receive about populations in the Middle East and Africa. With a focus on the socialization processes of schooling, this book deconstructs the classroom experience and investigates the ways in which a macro-societal phenomenon—otherness—is reified in micro-societal interactions. Through the methodological lens of Critical Discourse Analysis, this work illuminates the importance of teachers' language in challenging and reinforcing portrayals that cast the diverse populations of the Middle East and Africa in the role of "the other."

This book examines the discourses on nation-building, civic identity, minorities, and the formation of religious identities in school textbooks worldwide. It offers up-to-date, practical, and scholarly information on qualitative and mixed-method textbook analysis, as well as the broader context of critical comparative textbook and curriculum analyses in and across selected countries. The volume offers unique and empirical research on how internal educational policies and ideological goals of dominant social, political, and economic groups affect textbook production and the curricular aims in different educational systems worldwide. Chapters address the role of school textbooks in developing nationhood, the creation of citizenship through school textbooks, the complexity of gender in normative discourses, and the intersection of religion and culture in school textbooks.

The famous 1962 Port Huron Statement by the Students for a Democratic Society (SDS) introduced the concept of participatory democracy to popular discourse and practice. In *Inspiring Participatory Democracy* Tom Hayden, one of the principal architects of the statement, analyses its historical impact and relevance to today's movements. *Inspiring Participatory Democracy* includes the full transcript of the Port Huron statment and shows how it played an important role in the movements for black civil rights, against the Vietnam war and for the Freedom of Information Act. Published during the year of Port Huron's 50th anniversary, *Inspiring Participatory Democracy* will be of great interest to readers interested in social history, politics and social activism.
