This edited collection responds to a gap in the literature by presenting a much-needed examination of both the theoretical and practical aspects of teacher education for English as a lingua franca in Indonesia. Through a series of extended research-based and conceptual chapters written by experts in teaching English to speakers of other languages (TESOL) in and about Indonesia, this book offers an insight into Indonesia's unique cultural, social and institutional contexts. The content focuses on four interrelated themes: the transition of perspective from English as a foreign language (EFL) to English as a lingua franca (ELF); the knowledge base of ELF pedagogy; teacher agency and identity in ELF; and innovations in teacher education for ELF. This book is highly relevant to English teachers, teacher educators and scholars worldwide aspiring to broaden their horizon and professionalism in the teaching of ELF.

This book reignites discussion on the importance of collaboration and innovation in language education. The pivotal difference highlighted in this volume is the concept of team learning through collaborative relationships such as team teaching. It explores ways in which team learning happens in ELT environments and what emerges from these explorations is a more robust concept of team learning in language education. Coupled with this deeper understanding, the value of participant research is emphasised by defining the notion of 'team' to include all participants in the educational experience. Authors in this volume position practice ahead of theory as they struggle to make sense of the complex phenomena of language teaching and learning. The focus of this book is on the nexus between ELT theory and practice as viewed through the lens of collaboration. The volume aims to add to the current knowledge base in order to bridge the theory-practice gap regarding collaboration for innovation in language classrooms.

This proceedings book captures a wide range of timely themes for readers to be able to foresee the digital era's impact on English teaching in non-English speaking countries. Who can provide us the wisdom to know what to do? Those scholars going through these complex environmental changes! A collection of puzzle pieces may bring us a better contour for the future than a perfectly edited book. It's indeed a pleasure reading these insightful pieces to gain wisdom for the future of ELT practices in global contexts.
