Book Description: Upon its publication in 1871, Charles Darwin's The Descent of Man and Selection in Relation to Sex sent shock waves through the scientific community and the public at large. In an original and persuasive study, Bert Bender demonstrates that it is this treatise on sexual selection, rather than any of Darwin's earlier works on evolution, that provoked the most immediate and vigorous response from American fiction writers.

The Descent of Love: Darwin and the Theory of Sexual ...

In The Descent of Man, Darwin wrote only twice of "survival of the fittest" - but 95 times about love, 92 times about moral sensitivity, and 200 times about mind and brain! Behind these four simple statistics lies the story of the what happened to us during the 20th century and the difference that can be ours in the 21st.
