Laurent Murawiec's The Mind of Jihad offers a different perspective. Discounting both the grievance and Islam-as-innately-violent models, Murawiec explores certain untapped areas of research in order to show correlations between radical Islam and any number of uniquely Western concepts and patterns, both philosophical and historical.

Murawiec examines contemporary jihad using history, anthropology, and theology to understand its political and ideological origins.

Raised as a devout Muslim but holding a Ph.D. in Christian education, Gabriel uses his unique background to share real-life stories of Christians living in Muslim countries, lists the top ten terrorists, explains the value of religious education for Muslim children, and discusses why the history of Islam has been a bloodbath.

In 1105, six years after the first crusaders from Europe conquered Jerusalem, a Damascene Muslim jurist named 'Ali ibn Tahir al-Sulami (d. 1106) publicly dictated an extended call to the military jihad (holy war) against the European invaders. Entitled *Kitab al-Jihad* (The Book of the Jihad), al-Sulami's work both summoned his Muslim brethren to the jihad and instructed them in the manner in which it ought to be conducted, covering topics as diverse as who should fight and be fought, treatment of prisoners and plunder, and the need for participants to fight their own inner sinfulness before turning their efforts against the enemy. Al-Sulami's text is vital for a complete understanding of the Muslim reaction to the crusades, providing the reader with the first contemporary record of Muslim preaching against the crusaders. However, until recently only a small part of the text has been studied by modern scholars, as it has remained for the most part an unedited manuscript. In this book Niall Christie provides a complete edition and the first full English translation of the extant sections (parts 2, 8, 9 and 12) of the manuscript of al-Sulami's work, making it fully available to modern readers for the first time. These are accompanied by an introductory study exploring the techniques that the author uses to motivate his audience, the precedents that influenced his work, and possible directions for future study of the text. In addition, an appendix provides translations of jihad sermons by Ibn Nubata al-Fariqi (d. 985), a preacher from Asia Minor whose rhetorical style was highly influential in the development of al-Sulami's work.

Between 1994 and 2000, Omar Nasiri worked as a secret agent for Europe's top foreign intelligence services-including France's DGSE (Direction Générale de la Sécurité Extérieure), and Britain's MI5 and MI6. From the netherworld of Islamist cells in Belgium, to the training camps of Afghanistan, to the radical mosques of London, he risked his life to defeat the emerging global network that the West would come to know as Al Qaeda. Now, for the first time, Nasiri shares the story of his life-a life balanced precariously between the world of Islamic jihadists and the spies who pursue them. As an Arab and a Muslim, he was able to infiltrate the rigidly controlled Afghan training camps, where he encountered men who would later be known as the most-wanted terrorists on earth: Ibn al-Sheikh al-Libi, Abu Zubayda, and Abu Khabab al-Masri. Sent back to Europe with instructions to form a sleeper cell, Nasiri became a conduit for messages going back and forth between Al Qaeda's top recruiter in Pakistan and London's radical cleric Abu Qatada.

A penetrating look into the inner logic of al-Qa'ida and like-minded extremist groups by which they justify September 11 and other terrorist attacks includes specific ideologies of jihadism, a new movement that allows members to call for the destruction of democracy and to murder innocent men, women, and children.

Leading the second wave of post 9/11 terrorist books, American Jihad reveals that America is rampant with Islamic terrorist networks and sleeper cells and Emerson, the expert on them, explains just how close they are to each of us.
