Essays on photography and the medium's history and evolving identity. In *Each Wild Idea*, Geoffrey Batchen explores a wide range of photographic subjects, from the timing of the medium's invention to the various

implications of cyberculture. Along the way, he reflects on contemporary art photography, the role of the vernacular in photography's history, and the Australianness of Australian photography. The essays all focus on a consideration of specific photographs--from a humble combination of baby photos and bronzed booties to a masterwork by Alfred Stieglitz. Although Batchen views each photograph within the context of broader social and political forces, he also engages its own distinctive formal attributes. In short, he sees photography as something that is simultaneously material and cultural. In an effort to evoke the lived experience of history, he frequently relies on sheer description as the mode of analysis, insisting that we look right at--rather than beyond--the photograph being discussed. A constant theme throughout the book is the question of photography's past, present, and future identity.

In early 1997, a man named Mel Waters called into a late-night syndicated radio show to make the claim that he had an "endless hole" on his property in the mountains of Eastern Washington that measured more than 80,000 feet deep. That phone call would lead to a wild turn of events that saw the government get involved, money change hands, and eventually something much more sinister occur. Did Mel discover the fate of our species? Or was it just a tall tale with a

bizarre string of coincidences to back it up? Author Christopher Hayden digs into the mystery in this novel that covers the phone calls, details, misconceptions, and theories of Mel's Hole.

Soon to be a Netflix Original Series! Welcome back to Virgin River with the book that started it all... Wanted: Midwife/nurse practitioner in Virgin River, population six hundred. Make a difference against a backdrop of towering California redwoods and crystal clear rivers. Rent-free cabin included. When the recently widowed Melinda Monroe sees this ad, she quickly decides that the remote mountain town of Virgin River might be the perfect place to escape her heartache, and to reenergize the nursing career she loves. But her high hopes are dashed within an hour of arriving—the cabin is a dump, the roads are treacherous and the local doctor wants nothing to do with her. Realizing she's made a huge mistake, Mel decides to leave town the following morning. But a tiny baby abandoned on a front porch changes her plans...and former marine Jack Sheridan cements them into place.

Walking the Way affirms that, like yin and yang, the flowing spontaneity of Tao and the precise simplicity of Zen find perfect balance with one another. Robert Meikyo Rosenbaum brings the two traditions together in a unique presentation that elicits Zen insights from his fresh interpretation of

verses from the Taoist classic, the Tao Te Ching. Personal anecdotes illustrate the dynamic potential of Rosenbaum's approach, skillfully revealing Zen within the Tao and the Tao of Zen. Not only does the author reveal the elegance of each tradition, he shows how their interrelatedness does, in fact, have import on our meditative practices and on our day-to-day lives. Parenting, meditating, dealing with setbacks and illnesses--Walking the Way shows us how to live well in the midst of many complex demands, finding harmony and equilibrium between honing in and letting go, balance between being ourselves and selflessly serving others.

emotions in this gentle giant of a man—emotions that he has never allowed himself to feel. Then Paige's ex-husband turns up in Virgin River. An inspirational memoir about how Jennifer Pastiloff's years of waitressing taught her to seek out unexpected beauty, how hearing loss taught her to listen fiercely, how being vulnerable allowed her to find love, and how imperfections can lead to a life full of wild happiness. Centered around the touchstone stories Jen tells in her popular workshops, On Being Human is the story of how a starved person grew into the exuberant woman she was meant to be all along by battling the demons within and winning. Jen did not intend to become a yoga teacher, but when she was given

the opportunity to host her own retreats, she left her thirteen-year waitressing job and said "yes," despite crippling fears of her inexperience and her own potential. After years of feeling depressed, anxious, and hopeless, in a life that seemed to have no escape, she healed her own heart by caring for others. She has learned to fiercely listen despite being nearly deaf, to banish shame attached to a body mass index, and to rebuild a family after the debilitating loss of her father when she was eight. Through her journey, Jen conveys the experience most of us are missing in our lives: being heard and being told, "I got you." Exuberant, triumphantly messy, and brave, *On Being Human* is a celebration of happiness and self-realization over darkness and doubt. Her complicated yet imperfectly perfect life path is an inspiration to live outside the box and to reject the all-too-common belief of "I am not enough." Jen will help readers find, accept, and embrace their own vulnerability, bravery, and humanness.
