This volume raises questions about why oral celebrations of language receive so little attention in published literary histories when they are simultaneously recognized as fundamental to our understanding of literature. It aims to prompt debate regarding the transformations needed for literary historians to provide a more balanced and fuller appreciation of what we call

literature, one that acknowledges the interdependence of oral storytelling and written expression, whether in print, pictorial, or digital form. Rather than offering a summary of current theories or prescribing solutions, this volume brings together distinguished scholars, conventional literary historians, and oral performer-practitioners from regions as diverse as South Africa, the Canadian Arctic, the Roma communities of Eastern Europe and the music industry of the American West in a conversation that engages the reader directly with the problems that they have encountered and the questions that they have explored in their work with orality and with literary history.

This book offers the most comprehensive, up-to-date, multidisciplinary approach to the work of Galician jongleur Martin

Codax and the Vindel Parchment. This medieval manuscript with the texts of seven cantigas de amigo by Martin Codax and the music score of six of them, is a philological gem that underwent numerous vicissitudes. The current volume comprises eighteen chapters dealing in depth with Codax's work and the Vindel Parchment from five basic perspectives: literature; linguistics, codicology and ecdotics; music; history and reception of the Vindel Parchment; and the historical background of medieval Vigo (at the time still a small town where Codax's cantigas de amigo are set). Specialists from different disciplines and countries joined forces in a effort to improve our understanding of Martin Codax and his lyric poetry. The research included here tries to go beyond received knowledge in the field by using new approaches and perspectives, delving deeper into areas that

had not been sufficiently studied, or by venturing into unexplored territories. Many hypotheses are put forward, contributing to raising interest in a fascinating, enigmatic author, in his extraordinary cantigas and in a medieval parchment that is becoming less and less mysterious. The volume contains contributions in English, Spanish, Italian, Portuguese, and Galician, each accompanied by a summary in English.

Os ensaios deste livro têm o objetivo de compreender a importância das letras na construção das identidades em solo paulista entre o final do século XIX e a segunda metade do século XX.

Zumthor Paul A Letra E A

The Handbook of International Futurism is the first reference work ever to presents in a comparative fashion all media and countries in which the movement, initiated by F.T. Marinetti in 1909, exercised a particularly noteworthy influence. The handbook offers a synthesis of the state of scholarship regarding the international radiation of Futurism and its influence in some fifteen artistic disciplines and thirty-eight countries. While acknowledging the great achievements of the movement in the visual and literary arts of Italy and Russia, it treats Futurism as an international, multidisciplinary phenomenon that left a lasting mark on the manifold artistic manifestations of the early twentieth-century avant-garde. Hundreds of artists, who in some phase in their career absorbed Futurist ideas and stylistic devices, are presented in the context of their national traditions, their international

connections and the media in which they were predominantly active. The handbook acts as a kind of multi-disciplinary, geographical encyclopaedia of Futurism and gives scholars with varying levels of experience a detailed overview of all countries and disciplines in which the movement had a major impact.

Medieval and Golden Age studies reflect the richness and variety of literary output in medieval Spain.

Em fevereiro de 1965, sobre o palco do show Opinião, ganhava espaço no cenário artístico nacional Maria Bethânia Telles Vianna Veloso. O espetáculo, produzido pelo Teatro de Arena e dirigido por Augusto Boal, tivera sua estreia em dezembro do ano anterior, com um elenco
